

**G&K SERVICES**

3/19/2015

To Whom It May Concern:

I've had the pleasure of working with CCR Truck Repair, LLC since its inception in the latter half of 2014. I've been asked to provide a letter of reference on behalf of their company.

As a Fleet Administrator, I have my choice of maintenance vendors and an unlimited pool of options when it comes to servicing our fleet. The experience I've had working with the professionals at CCR Truck Repair has been nothing short of remarkable and I must say CCR Truck Repair is my first call when I need it done correctly, fast and at a fair price.

G&K's delivery fleet consists of several types of medium and heavy duty commercial vehicles that include Step vans, Straight Trucks and Tractor Trailers. Our business is unique in a sense that our hours of operation keep these vehicles running nearly 24 hours a day. With this type of continuous use, proper maintenance to keep these vehicles in motion is hallmark to keeping our customer base appropriately served.

The Maintenance Technicians at CCR Truck Repair are experienced, knowledgeable and properly trained. When an issue does arise, I take solace in knowing that a qualified, capable shop is just a phone call away. I've had the blessing of being able to call CCR Truck Repair at anytime day or night and have a certified technician on the way within minutes. This type of response saves the bottom line!

I believe the company is owned and operated by right-minded and respectable people who deliver what they promise without sinking your P&L. Business revolves around budgets and keeping expenses in line, I'm grateful that CCR Truck Repair, LLC is part of our G&K family.
